To Whom It May Concern:

Gunners Meters has recently been working with Terry Oplinger, Jr. and Mainstreet Business Solutions to help with our technology needs. Mainstreet has been a very helpful resource to address our networking and software support foundation.

Our association with Terry and Mainstreet Business Solutions has proven to be an essential piece to supporting our business. His professionalism and skills are impressive and invaluable. With every visit, Terry has been able to contribute timely support and create significant solutions for our needs.

Recently we experienced a significant catastrophe with our hardware and internet access. With the guidance of Terry, we have improved our protection, and increased our capabilities with very little investment. Mainstreet Business Solutions has consistently exceeded our expectations. Our partnership with Terry has improved the reliability of our networking infrastructure and made for a very stable working relationship with technology.

Mainstreet Business Solutions is an invaluable asset to our small business, and we highly recommend their services. If you would like to discuss the advantages of utilizing a partner like Mainstreet in more detail, please don't hesitate to contact my Office Manager Joni Tremblay at the above number.

Sincerely,

Terry Traynor  
President/Owner
