To Whom It May Concern:

John Cowley & Son's have recently been working with Terry Oplinger, Jr. and Mainstreet Business Solutions to help our establishment. Mainstreet has been an invaluable resource to have available.

Terry is a professional and skilled consultant of the highest caliber, who is meticulous, attentive, and knowledgeable. We've received many compliments from customers who have been impressed with the designs of our menus and marketing materials. Our own employees and personnel have commented on the tremendous support and contributions made by him, and praise his work.

Terry and Mainstreet Business Solutions have introduced ideas and solutions which typically exceed expectations. Recently we contracted Terry to redesign our web site and were pleased with the results and success we experienced. When we measured the traffic of our new web site designed and marketed by Mainstreet, there was a 300% increase in visitors. Our ability to become dramatically more efficient with and more reliant upon the technology we use is attributed to our relationship with this partner.

Mainstreet Business Solutions is an invaluable asset to our small business, and we highly recommend their services. If you would like to discuss the advantages of utilizing a partner like Mainstreet in more detail, please don't hesitate to contact me.

Sincerely,

Maureen Cowley
General Manager
